TECHNICAL EXPERIENCE

Yocum Technology Group, Allentown PA

May 2023 – Present

Senior Software Developer

- Developed and maintained multiple C# REST APIs, based on the CSLA framework, to support growing client applications, in React and Angular, across multiple projects.
- Implemented our organizations Azure DevOps processes, maintaining CI/CD pipelines for entire applications, managing repository policies for pull requests, and creating service hooks to automate checks.
- Worked on a .NET code generation project to help speed development of UI and API code using templates and metadata it to rapidly iterate products across.

Creditsafe US, Allentown PA

March 2017 – May 2023

Web Developer

- Developed a new product website, using React and .NET, on a remote international team operating in agile scrums. Responsible for maintaining existing components and development of new country specific features on all levels of the product.
- Worked closely with product owners and scrum leaders to create clear and actionable tickets while also maintain a healthy backlog.
- Created ad-hoc .NET and Python applications to help deliver customized data solutions to our customers involving data collection and formatting from internal and external data sources.
- Trained and mentored new developers on our products and processes as well as their programming skills.

Computer Aid, Inc., Allentown, PA

January 2013 – March 2017

Developer/Analyst

- Developed and supported a full-stack project management solution written using ASP.NET WebForms, C# SOAP services, and an MS SQL Server database.
- Designed and programmed automated deployment tools for the deploying and upgrading of customer product instances.
- Development on a modernized project status offering using Ruby on Rails.
- Created REST web services in Rails to provide a lightweight API for communication between multiple products.

SKILLS

- Languages: C#, SQL (MS, Postgres, Oracle), JavaScript (React), Python, Ruby
- Technologies: .NET, ASP.NET MVC, IIS, MS SQL Server, Postgres, Git, Azure DevOps

EDUCATION

Lehigh University, Bethlehem, PA
